PRODUCT OF THE MONTH

Wild Garlic

Wild garlic is one of the first real signs that spring is on its way, and it's always a joy when it starts popping up again. The season is still in its early days, with those first bright green shoots appearing along woodland paths and in old churchyards, bringing that unmistakable garlicky aroma. The main British supply comes from Cornwall, and we're expecting it to ramp up properly by early to mid-March. Until then, we've got some coming in from France to tide us over. It's such a brilliant ingredient—fresh, punchy, and perfect for everything from pesto to soups. Spring is just around the corner!
